

# TechnoFresh

## Short Story

TechnoFresh™ attacks mold, mildew and other fungi, bacteria slime and other things that grow in the washing machine causing the odors.

TechnoFresh™ will immediately clean up the slimy black mold on the door gasket that a lot of machines experience

TechnoFresh™ is Patent Pending and comes with a money back guarantee.

TechnoFresh™ is super concentrated so you don't need much.

A 2 lb bottle could last 4 - 6 months or more

Safe for use with Septic Systems

No other method or product works better than TechnoFresh™!

-----

All washing machines have this problem.

All detergents and soaps have this problem.

The problem is due to excessive use of the detergent, soap or fabric softener

The excess stuff coats the inside of the plumbing

The coating is a food source for a mold, mildew and other fungus, and various kinds of bacteria slime that cause the odor

TechnoFresh™ uses chemicals that are safe for people to use, yet will keep the nasties from growing on the coating.

The active ingredients include FDA approved food preservatives, fungicides, and disinfectants.

-----

Nu Fresh, LLC attempts to be an environmentally responsible company

Web based sales only to eliminate paperwork and sales overhead.

The price of TechnoFresh™ includes the cost of the heavy duty Nalgene camping bottles and the price is still comparable to the competition. And it works...Environmental Win-Win..

The cost effective plastic containers are selected so they are reused rather than thrown into a landfill.

We use really good Nalgene camping bottles and really cheap labels that come off easily. That way you get a bottle without any advertising in the end so you are more likely to re-use it.

The TechnoFresh™ Super Shock Treatment is more effective than most shock treatments and is safer for the environment

All instructions are available online only. A printable version with minimum graphics is available at [www.NuFreshNow.net](http://www.NuFreshNow.net) if you want to print selected pages.

-----

So, the short Short Story Is:
